## MARINA PIRTSKHALAVA

Founder and Rector of Teaching University GEOMEDI  
Doctor of Biological Sciences, Professor, Academician

### Message from the Rector

Geomedi is one of the most successful higher education institutions in Georgia. The University provides students with a high-quality education and ensures the graduates with the competencies necessary for their future career. Equipped with theoretical knowledge and practical skills received at our University, graduates successfully continue their work in leading clinics and medical institutions of our country and abroad. Educational programs at the University are in line with European standards. The University collaborates with many foreign educational and scientific-research institutions, which allows us to fulfill many international projects.

## LABORATORIES

Students have opportunity to deepen their knowledge in basic disciplines and acquire research skills at university laboratories.

## Faculty of Medicine

Faculty of Medicine of the University Geomedi represents major academic and administrative unit, which provides students with the academic freedom and autonomy within the framework of the preparation of the medical specialties and awarding appropriate qualifications, also carries out educational programs and scientific research in medicine. It Provides students and faculty personnel with the best conditions for learning, teaching and scientific research; so they can be ensured to receive education based on modern standards in the relevant field of science, and continue to improve the training and scientific conditions.

The certified Medical Doctor's program aims at training competitive and qualified graduates with relevant competences that will help them to further their professional development on domestic and international labor markets and continue their studying in residency, post diploma education courses alternative to residency (professional preparation), implementing the research in theoretical fields of medicine in other areas of healthcare, which does not imply independent medical activities.

## CONFERENCE HALL

There are two conference halls available for holding students conferences, seminars, workshops other varieties of events.

## LIBRARY

The Library, equipped with up to date textbooks and a variety of electronic resources, allows students to receive modern education in a comfortable environment

## EXAMINATION CENTER

Students have access to a state of the art European Level Examination center, which provides a calm and comfortable environment for students to take the exam.

## **ANATOMY HALL**

The Department of Anatomy has an incremental role in teaching and training future doctors. A newly renovated Anatomy Hall at University Geomedi gives students Opportunities to be trained in all branches of Human Anatomy using traditional and innovative methods.

## **SIMULATION MEDICINE CLINIC**

The Simulation Clinic of Teaching University Geomedi provides students with the opportunity to become familiar with clinical environment, where students will be able to develop their clinical skills in a realistic, yet simulated environment, for better assessment of their clinical reasoning skills and scientific knowledge.

## AFFILIATED AND PARTNER CLINICS

Our students have the opportunity to undergo medical training at many leading hospitals in Tbilisi. These include multiprofile University-Affiliated "German Hospital" The Supervisory board of the hospital is presented by professors of the Technical University of Munich. Students of Teaching University Geomedi will able to gain knowledge and clinical practice in accordance with high standards of German education without leaving Georgia, and will have a possibility to be involved in the University-based clinical researches along with Georgian and German professors.

# STUDENT LIFE

# TESTIMONIALS

## SANJEEV MENON (STUDENTS)

Teaching university Geomedi is one of the most efficient medical institutions in Georgia. This is evidenced by the successful activities of the University graduates both in Georgia and abroad. The Basic Knowledge acquired through the educational process is fully consistent with international standards, which makes the university graduates highly competitive as compared with those from any country, including the USA. The Curricula are made in English according to the requirements of international standards.

## ANUSHA PRABHU (STUDENTS)

My experience of 2 year study in the GEOMEDI UNIVERSITY has been very positive. It has provided me all the necessary knowledge required to be a competent physician. I believe anyone aspiring to be a skilled doctor can rely on the knowledge and guidelines provided by the GEOMEDI UNIVERSITY. On successful completion of the GEOMEDI UNIVERSITY, I'm sure the student will be more than capable to undertake USMLE exam.

## GOPIKA GOPALA KRISHNAN (STUDENTS)

I am Gopika Gopala Krishnan from India like to share my experience at the GEOMEDI UNIVERSITY in Tbilisi. I came all the way from India to get my medical degree at Geomedi University in order to achieve my childhood dream of becoming a Doctor. The first thing I have to say is I am happy to be a part of this university. Before joining in this university I did not have any idea about this university and I was so scared about my future. But my first day in this university is unforgettable.
